Education

Bachelor of Technology University School of Information, Communication and Technology *Delhi, India* **09/2024 - 09/2027**

- Major in Computer Science and Information Technology

Diploma in Computer Engineering Delhi Skill and Entrepreneurship University *Delhi, India* **06/2021 - 04/2024**

- Major in Computer Engineering

Experience

Mentor as Full Stack Dev GirlScript Summer of Code *Remote, India* **05/2024 - Present**

- As a mentor in [GirlScript Summer of Code](#) (GSSoC), I empowered aspiring Full Stack Developers, guiding them through impactful projects while fostering a culture of open-source contribution.
- Through hands-on mentorship, I equipped numerous students with the skills and confidence to excel in Full Stack development, enabling them to make meaningful contributions to the open-source community.
- In GSSoC, I facilitated a supportive environment where students honed their technical prowess and embraced the ethos of collaboration, driving innovation in full-stack development.

Open Source Contribution Hacktoberfest *Remote, India* **10/2023 - 10/2023**

- Successfully contributed to Open Source Projects such as [Google Developers Student Club](#) and Box Office (Movie & shows finder) using the latest HTML, CSS, ReactJs, and Bootstrap technologies.
- Achieved distinction as one of the first 50,000 contributors in Hacktoberfest 2023, with a successfully accepted pull request, and honored with a tree planted in my name for impactful contributions.
- Achieved recognition in Hacktoberfest 2023 [Hall of Fame](#), highlighting my excellence in open-source collaboration.

Front-End Developer, Intern CareerWidth *Remote, India* **03/2023 - 07/2023**

- Empowered 20+ students with personalized portfolio websites, a catalyst for their successful admission into international colleges.
- Enhanced website performance and SEO by optimizing JavaScript through the implementation of features such as lazy loading, image compression, and improved meta descriptions, resulting in a significant improvement in speed and search engine visibility.

Projects

- **Discord:** Designed and developed a front-end clone of Discord using **React Js & TailwindCSS**. Link to [Github](#) repo & live [URL](#). **(12/2023)**
- **React Pizza:** Mini restaurant web app implemented using **React Js & Tailwind CSS**. Link to [Github](#) repo & live [URL](#). **(11/2023)**
- **Allied Architecturals:** Developed a front-end & back-end using **Pug Js, SCSS, JavaScript, NodeJs, ExpressJs, Mongoose & MongoDB** for a client. Link to [Github](#) repo & live [URL](#). **(09/2023)**
